

Tired of sourcing from too many places?

Like no other shrimp farming country, Vietnam produces both Black Tiger and White shrimp. As a reliable supplier of both species, Vietnam has become the 3rd largest exporter in the world! Save time and buying costs and let Vietnam be your one-stop destination.

Not only quantity, but also quality and sustainability

Vietnam is increasingly exporting value-added shrimp products. Moreover, sustainability is embraced sector-wide. With the first Asian shrimp farm ASC certified in 2014, the number of ASC certified company continues to increase rapidly. On top of that, you can even find organic certified shrimp from low intensive aquaculture mangrove systems.

Take the opportunity

Book an appointment with VASEP via vietnamseafood@vasep.com.vn and take the opportunity to source high quality and sustainably produced shrimp efficiently and improve your profitability. You can meet with our leading shrimp exporters and talk with our experts from Vietnam Fisheries Directorate, NAFIQAD, VASEP & its members. At the same time, you can enjoy the taste of our beautiful seafood products at Booth No. 4065, Seafood Expo Global from 21st to 23rd April 2015.

What you need, we have it!
