OPEN LETTER

On "Report on Vietnam seafood exports"

Dear Enterprises and Readers,

The situation of the Covid-19 epidemic is still in a stressful period, which has had a strong impact on the seafood supply chain, which has caused many risks, challenges and also created many opportunities for the business community of seafood production and trading. As a companion for seafood enterprises in the context of production, export and market fluctuations, the Vietnamese-English bilingual publication "Report on Vietnam Seafood Exports" published quarterly by VASEP, is specially interested and highly appreciated by the domestic seafood business community, foreign seafood importers and seafood market researchers for its the orientation for seafood business activities.

"**Report on Vietnam Seafood Exports**" provides update and accurate statistics on Vietnam seafood imports and exports of each commodity category (pangasius, shrimp, tuna, squid, octopus, bivalve mollusks), ...); price movements of each main aquatic product exported to key markets; a list of Vietnamese enterprises exporting seafood products to markets; multi-dimensional data as well as information on trade of each seafood category in main import and export markets; analyzes and evaluate outstanding issues of the seafood export industry; comments and forecasts trends of import, production and export markets of other countries, etc.

In order for you to have the most updated and useful information, our "Report on Vietnam Seafood Exports in Quarter I/2021" was officially issued at the end of April 2021. We attach detailed outline of the Report for your reference.

We look forward to receiving your support, registration and comments.
